COMPANY PROFILE

1. COMPANY IDENTIFICATION

Company's Name: DONGGUAN LIJI ELECTRONIC MATERIAL CO.,LTD.

Company's Address: JIANSASHOU IND ZONE WANJIANG DISTRICT DONGGUAN GUANGDONG CHINA

Company Tel: +86-0769-87076013 Fax: +86-0769-87076017

2. Base

Our company is specializing in manufacturing, processing and selling electronic insulating materials. Our products are widely applied in PCB、FPC、electronic instruments、model and other high-tech industries.

We have strong technical force, advanced processing equipment, perfect testing means and scientific management methods. The attribute of our product such as product flatness, thickness tolerance, high temperature anti-denatured, resistance all have a quality advantage. Excellent and stable quality is welcomed by customers, and in the market enjoy a good reputation. We will provide to customers at preferential prices and perfect after-sales service, also according to user needs we can provide the development of processing a variety of high demand, high-standard products.

The main products and services: Epoxy glass cloth laminated sheet (FR4 / G10), FR-4 Copper clad laminate (CCL), FR-4 insulator CNC machining services, Aluminum Based Copper Clad Laminate (Aluminum CCL), PCB / MCPCB.

According to customer drawings, we can provide segmenting, fine grinding, turning and milling, drilling, through-train services. Through grinding we can make epoxy glass cloth laminated sheet and electricity board to

reach the thickness tolerance of less than ± 0.1 mm, board warpage is less than 0.2 percent long diagonal.

We have pursued the spirit of "Quality First; Service is above everything else; Reasonably priced". According to high-quality, efficient, fast service we establish long-term partnership with customers, continuing to improve our products and services.

Warmly invite you to visit our website to get more updated information or contact us directly, we feel sure that you will find one or more items that attract you!

We look forward to cooperating with you and seeking a joint development, your relative enquiry will get a prompt response.
